For teleconference and online meetings, the District currently utilizes Zoom, an external hosting platform that allows for visual and audio participation by Board members, staff, and members of the public. For meetings that are held by teleconference or online methods, the District will post the web address link and/or the telephone conference number and access code in accordance with the applicable agenda posting procedures, so the public can access these meetings by virtual means. Similar to in person meetings, Board meetings held via teleconference and online are or can also be made accessible to people with disabilities.

Zoom offers accessibility features, including keyboard accessibility and screen reader support. Members of the public may review Zoom’s accessibility policy at <https://zoom.us/accessibility>, and register individual disability requirements via email to access@zoom.us, in addition to making any requests for reasonable accommodations directly to the District.

Most other online meeting platforms also have the capability of allowing members of the public to call in to listen to the entire portion of the meeting that is accessible to the public, as well as speak on particular agenda items as well as during the public comments portion of the meeting, without requiring the use of a computer or Internet service. To the extent possible, the District will utilize an external hosting platform with various accessibility features that follows World Wide Web Consortium (W3C) Web Content Accessibility and Section 508 of the United States Access Board standards and guidelines.
